Specialty Tea

The amazing history of tea dates back to 2737 BC in ancient China. According to legend, Chinese emperor and herbalist Shen Nung first discovered tea by chance. Sitting beneath a tree while his servant boiled drinking water, some leaves fell into the water. As he tasted the delicious accidental infusion, tea was born and the emperor's fascination started, leading to the discovery of each type's healthful properties. This natural healthy beverage subsequently made it to Europe, Asia and Africa and became popular across the globe.

Our high-quality specialty tea is sourced from some of the best tea plantations around the world, including India, Japan, China, South Africa, Germany, and others. We take pride in our commitment to quality, authenticity and sustainability.

Specialty Tea Selection _____ \$5

Choose from our wide selection of black tea, green tea, white tea, herbal infusions, fruit blend infusion or rooibos.

All drinks can be served hot or iced, upon preference.
